

Fisherman and Gompy Kit

By James Clark

This round I will try out the fisherman kit with my friend Logan who will be trying the gompy kit. The first thing we did was run to the generator. We each got stone swords and wool then attacked our enemies. Logan got his vacuum and I got my fishing rod. I started fishing for items and he collected ghosts and then a guy came and attacked me. So Logan ran screaming the ghostbusters theme song and shooting him with ghosts. I gave him some emeralds and we each got some diamond gear. We then went separate ways and killed all the enemies. I think fisherman is one of the best kits if you like defending your base and Logan thinks gompy is probably his favorite kit.
