Hello people its me, VECTOR, if someone finds this journal that I am writing in, they'll know my plan to TAKE OVER THE WORLD, HAAAAHA HEHEHE! But first I have to deal with GRU and his pesky little children, I have to get the shrink ray from that vault so I could end Grus Career of being agent of the year. And once I get that shrink ray, I will shrink Gru and the girls and squish them like bug's. My servants are hacking into the cameras at the museum for me to get the ray, without anybody noticing. The servants are almost done with the cameras and I will end this Gru. But first I have to eat my delicious cookies I made

My plan is foiled by Gru and his kids and minions, good thing I got away fast enough. I have to get something better than a shrink ray. OH I know, I should make a TIME MACHINE!!
