**Table Of Contents**

**Hi i'm an astroneer**

**What's an astroneer**

**Getting power**

**Making some tools**

**Mining time**

**The rocket**

**Hi i'm an astroneer**

**I'm an astroneer i spend my time building things and stuff. This is just my topic btw.**

**What's an astroneer**

**An astroneer is an engineer and an astronaut. We build stuff. Lots of stuff.**

**Wow, I just landed on this beautiful planet called sylva. According to the astropedia this is where I'll find most of the resources for my journey. This is gonna be fun.**

## **Getting Power**

**First we need a source of power. Let's make a generator. Oh there's some compound over there.let's go grab it so we can make power.and done generator boom wow omg so awesome.lets make a printer to make bigger stuff.20 minutes later. Ay there we go a drill les goooooooooo.**

## **Making some tools**

**Time to make tools.there essentials of astroneer. Ow that hurt plants are dum and attack you here. Hmm hey that'll help. Some extra scraps are good for making stuff. Such as everything like rockets and drills and umm hmm oh bugggyyyyyyyyyyyyyys yay yay yayyy ayyayayayayayayayayaya.**

## **Mining time**

**Drills mining its fun lets go.quarts quartzs more-ooooooooo some titanium and zinc and aluminum yayayayayayay i can make a rocket. Wow what's that a glowy planet core thing lets power it up. Wow I got a new planet yaaaaaaaaaay.**

# **The Rocket**

**Byeeeeeeeeeeeeee world I liked yoooouuuuuu.**

**The End**

**Visit my new book astron eer life 2 a new world (Coming Soon)**
